IRON TRADE REVIEW.

No Drop in Prices, but Local Transactions Continue Light.

ORDERS AT THE EDGAR THOMSON

Sufficient to Insure a Good Demand the Rest of the Year.

MORE ACTIVE IN THE SOUTH AND WEST

We are now in the midst of the quiet season. Transactions are light, but there is no drop in prices. At this time of the year when trade is uniformly quiet, there will be furnacemen whose necessities force them to cut on prices. But standard brands of iron are firmly held, and there is a strong undertone of confidence in the future of trade. Dealers are strong in the faith that the fall trade will open up strong and early.

Demand for nails is good for the season, and prices are unchanged. At the Edgar Thomson Works orders are already in sufficient to insure an active demand for the entire product the balance of this year. Structural iron is in active demand at old rates. The demand for muck bar has improved the past week, owing to the efforts of wrought fron manufacturers to secure materials. Wire the past week, owing to secure materials. Wire from manufacturers to secure materials. Wire rods are still reported scarce, and while prices rods are still reported scarce, and while prices are firm there is no change this week. The general conditions of the iron and steel market are practically the same as they were a week

ago. The latest quotations follow: Structural Iron -Angles, \$2.15; tees, 2.50c; beams and channels, 3.10c; sheared bridge plates, steel, .60c; universal mill plates, Iron, 2.30c; refined 2.60c; universal mill plates, Iron, 2.80c; refined bara, 1.80c card. Barbed wire Sencing, galvanised, \$3.50; plain wire fencing, galvanised, \$3.50.

men are disposed to hold out firm for an advance of 50 cents to \$1 per ton on iron, to be delivered later than August 15 or September 1, and have accepted none of the propositions to close contracts at present prices. The shutdown of a number of furnaces the first of the month on account of the labor troubles prevented the usual summer accumulation of stock, and there is now very little unsold iron in the district. All the furnaces are in blast again, but if orders continue to come in at the present rate the stock on hand will be increased very little. creased very little.

The consummation of one big deal and the

The consummation of one big deal and the failure of another have been the features of the week in iron and financial circles. The Debardeleben Coal and Iron Company, the Besseiner Iron and Steel Company and the Little Belle Iron Company have been consolidated into one company, with a capital stock of \$10,000,000. Five million dollars of 6 per cent 20,year bands will be issued to retire the bands of the old companies, pay off all floating debts and make extensive improvements. The new commany, which takes the mame of the Debardeleben Coal and Iron Company, owns eight finnaces, six coke and two charcoal, and prohably the largest coal and ore mines in the South. The present output of the coal mines of the consolidated company is 4,000 tons per day, and the eight furnaces are supplied with ore frem the company's own mines. H. F. Debardeleben is president and general manager of the commany.

of the company.

The Mary Pratt furnace, one of the most profitable in the South, is to be placed in the hands of a receiver and rold at auction, because of a disagreement among the stockholders. W. T. Underwood, who owns a majority of the stock, was offered \$300,000 for his interest. Some of the minority stock holders refused. of the stock, was offered \$500,000 for his inter-cat. Some of the minority stockholders refused to sell, and talked of stopping the deal with an injunction. Underwood then filed a bill in chancery for the appointment of a receiver to wind up the affairs of the company and sell the property. The Mary Pratt furnace has always made money. The iron from this furnace has always found ready sale at a slight advance over any other iron produced in this district. always found ready and other iron produced in this distri Most of the output of the Mary Pratt is a in Boston and other Eastern markets.

AN UNEVENTFUL WEEK.

Scarcely Enough Business at St. Louis to Constitute a Market. ISPECIAL TELEGRAN TO THE DISPATCH.

St. Louis, July 25.-Rogers, Brown &

Meacham say: We have to record another uneventful week. with scarcely sufficient business doing to constitute a market. Some few small sales are reported at less than schedule figures, but it is unlikely that any concessions could be obtained unlikely that any concessions could be obtained on road lots, as most Southern furnaces are sufficiently well sold ahead to render them indifferent about pressing sales. Consumers are very busy, and as the hot weather disappears we may expect an active buying movement, We quote for cash and February St. Louis:

THE MARKET NOT SO DULL.

Inquiries for Pig Iron Are More Numer and Considerably More Urgent.

PETECIAL TELEGRAN TO THE DISPATUE, 1 CINCINNATI, July 25.-Rogers, Brown & Co. say: A few large transactions have relieved the market for pig iron of the dullness which otherwise prevailed during the week under re-view. The rank and file of pig iron consumers have been content to buy from hand-to-mouth, but the large buyers have evinced a disposition to cover contracts for the remainder of the year, and in some cases have been desirous of obtaining supplies of the pig metal running several months into next year. To this end inquiries havelyen/more numerous and also more urgen. There has been less pressure to sell speculative lots and prices have been sustained. The little change in the situation at the fur-maces has been for the better, reports showing a less rapid accumulation of stocks in furnace-yards in the North, and a small, but actual de-crease in the South. There has been a fair imcrease in the South. There has been a lair improvement in Ohio softeners, and a better demand for charcoal irons of both Northern and Southern production. Car wheel grades have been held very firmly without special activity. Lake Superior brands have found wider dissorbations.

New York Figures.

New York, July 25.—Pig iron strong. Copper easy; Lake, \$6.90. Lead dull; domestic, \$4.5. Tin steady; straits, \$20.90.

Drygoods.

NEW YORK, July 25. - Heavy rain in the NEW 108K, July 26.— Heavy rain in the forenon prevented any business in drygoods, but later in the day there was a good request, and especially for bleached cottens, wide sheetings, etc. There is yet no large trade, but it is thought that next week will develop some. The last two days has witnessed some increase in business.

Prices of Bar Silver. New York. July 25.—Silver-London, 49%d; New York, 51 08%.

Called for September 17.

Bosron, July 21. - The Republican State Committee to-day decided to hold the State SICK HEADACHE_Carter's Little Liver Pills. Convention at Tremont Temple, Boston, September 17. Congressman Frederick T. Greenbalge was chosen to act as chairman

MARKETS BY WIRE.

An Exciting Day Among Windy City Speci

An Exciting Day Among Windy City Speculators—Grain on the Jump—Shorts

Force the Advance—Bad Crop

News—Pork Higher.

CHICAGO—Wheat—Trading was very active and the market excited within a decidedly higher range of prices. The opening was about 14@1/4c higher than yesterday, and under fair offerings prices declined 1/4c, then rallied 1/4c or to 1/4c for September in which the most interest centered. But from this point prices suddenly advanced 2c with scarcely any trading, there being but little wheat on sale. This advance was followed by another upturn of 1/4c wheat for sale and the market settled back, ruled irregular and closed 1/4c higher for September, and 3/4c higher for December than closing figures of yesterday. There was nothing in the way of outside news to cause the sharp advance to-day, other than what has already been cited. But the short interest no doubt took fright at the reported large export purchases yesterday and in the attempt to cover forced the advance.

Corn—The bullish feeling that has prevailed in this market the past two days again manifested itself to-day, and a still further advance feeted itself to-day, and a still further advance feeted itself to-day, and a still further advance.

Corn—The bullish feeling that has prevailed in this market the past two days again manifested itself to-day, and a still further advance was established, though extreme prices were not maintained. The volume of business was immense, price changes being sharp and frequent, and the market was nervous and unsettled. The cause of the strength was continued had crop news, the advance in wheat and the active demand for cash property. First trades were a shade above the closing prices of yesterday, with the market active and excited, prices selling up 1@1%c, afterward reacting 1/20%c, dull and steady, and closed 1/20%c better than yesterday. Oats were active, the volume of business

September opened at 92%c, advanced to 98%c, latter selling down to 93%c; cash wheat nominal.

SICK BEADACHE_Carter's Little Lyler Pills. SICK HEADACHE_Carter's Little Liver Pills.

THE CHICAGO BOOM

Pittsburgers Who Purchased Land There Twenty Years Ago and

burg and the Windy City.

TREND OF TRADE ON POURTH AVENUE

an interview with THE DISPATCH represtory of real estate operations in the Windy City, including a comparison between values there and bere. While the narrative is of general interest, its local bearing is of special importance now that a great deal of Pittsburg capital 1s being invested in Chicago realty. Mr. Larkin said:

spent among the dealers there and an inspec-tion of suburban property, I am prepared to say that there is a splendid field in that city about the doubling up of values are correct. I can illustrate this best by reciting one transaction. Many years ago W. J. Radcliff, Charles B. Seely and others, of this city, purchased a tract of land in Cook county, township 38, section 28, range 18, in what was then known as the town of Lyons, in the southwest part of the county. The tract consisted of 160 acres of swamp land. It was subdivided and called "Keystone addition," although 14 miles distant by the nearest route from Madison and

of it.

"I went to Chicago to look up the title and The brick works is nearing completion, and the men employed travel to and fro on speeders on the Belt Railroad,"

"The price of land, although out on the open prairie, has enhanced very rapidly owing to a purchase of 3,400 acres in that part of the county

listance from the city and in the immediate neighborhood of the land owned by the syndi-cate of Pittsburgers. When I talked to Messra. Snow & Dickenson, Thomasson and other operators about a fine acre lot, they laughed about a fine acre lot, they laughed about it, and said: 'We could not handle it, and do not touch anything in the remote suburbs less than 20 to 80 acres.' In addition to the assured location of the Union Transfer Company, Grant Locomotive Works and the removal of the Company, Crant Locomotive Works and the removal of the Company, Crant Locomotive Works and the removal of the Company, Crant Locomotive Works and the removal of the Company, Crant Locomotive Works and the removal of the Company of t Grant Locomotive Works and the removal of the Union Stockyards to the suburbs with its 20,000 interested people, the moneyed men of Chicago claim that the passage of the silver bill with its annual increase of \$70,000,000, added to the present volume of currency, and the great influx to the World's Fair, fully justify the rapid increase in price of Chicago real es

"I pretty thoroughly covered the immediate suburbs in three days, and with the developments going on and proposed, I see no reason to doubt that many millions of money will be made in the next 10 years out of the land that now seems valueless, except for its growth of prairie hay. You may talk about the Windy City as you please. It has the territory, the money and enterprise, and in the near future will be the first city of this country."

A Comparison of Values.

ground as compared with values in the suburbs of this city, Mr. Larkin said:

over railroad ties for 2% miles from the nearest station, and then looked up and had the title

Business News and Gossip. A new plan of lots is being opened between Wilkinsburg and Edgewood. It is understood to be in the hands of Messrs. Hamnett & Mere-

The highest price yet paid for land in the Squirrel Hill district was at the rate of \$21,000 an acre for a lot 60 by 200. The deal occurred some time ago but was not reported. The pur-chaser said yesterday he could sell it any day at

The most important mortgage on file for record yesterday was for \$4,000. There were 33 in all, of which 14 were for purchase money.

Beringer & Son—Work on California avenue and the certainty of an electric road in about

Real estate is suffering comparatively little

from the absence of a number of capitalists. The fact is that practically every citizen is an investor. This has taken the market almost entirely out of the hands of the regulars and given it a fresh impetus, assuring continued activity.

and to let contracts for the erection of 20 stone houses on McPherson street, St. Mark's Catholic Church, at Altoona, will cost \$40,000. The contract has been let and ground will be broken next week. Movements in Real Estate.

BRADFORD, July

89c; closed, 89%c; highest, 89%c; lowest, 89c; charters, 80,516 barrels; clearances, 164,000 barrels; runs, 72,092 barrels; shipments, 100,839 barrels.

OIL CITY, July 25.—Petroleum opened at 85%c; bighest, 89%c; lowest, 85%c; closed at 89c%. Bales, 27,000 barrels; clearances, not reported; charters, 21,548 barrels; shipments, 100,459 barrels; runs, 73,340 barrels.

New York, July 25.—Petroleum continues narrow and no interest is shown in the trading. The opening to-day was steady with spot 88% and August 89c. A slight gain was made in the early trading, then the market became dull and remained so until the close. Stock Exchange—Opening, 88%c; highest, 89c; lowest 88%c; closing, 89%c. Total sales, 68,000 barrels.

OIL STRIKES IN BUTLER.

A Five-Bundred Barrel Gusher Among the Latest and Best.

Reed B. Coyle & Co. sold to S. Fiddler and wife three lots in the Marvin place plan, fronting 87.68 feet on Gladstone street by 140 feet in depth, to Parnell street, for \$1,000.

Alles & Balley sold for Thomas Murray, No. 88, Thirtieth street, Southside, being a frame house of six rooms, etc., lot 20x100 feet to an alley, for \$2,309. Andrew Gallahen was the nurchaser. BUTLER, July 25.—A 500-barrel gusher was brought in yesterday on the Hugh Kellerman farm at Murrinsville, by the McKinney Brothers at Titusville. This well is not far from developments, and is not of much value aside from its own intrinsic worth, though it has revived interest in the field, which has been aside from its own intrinsic worth, though it has revived interest in the field, which has been rapidly losing ground during the past two weeks, many half drilled wells having been abandoned on account of the dull outlook. Six or seven miles southeast of this field, in Washington township, there is a promising little development. Some time ago a 15-barrel well was struck on the Henderson Shira farm, and since then a number of test wells have been started. Nelson, Moore & Co. will get the sand next week in their No. 1 on Harmon Seaton's farm, and Shed, Symcox & Co. will reach the paysireak, if there be any, on the George Armor farm in about ten days. A rig is going up on the James Thompson farm for Courtney & Say, and Moore & Co. have a rig up on the Alf Shira farm, and will start the drill as soon as machinery can be obtained. These wells are about 18 miles north of Butlerand a considerable distance from any producing territory. Coe & Co. have a promising well in the sand one-half mile north of Callery Junction. The 100-foot rock is porous and pebbly and reported to be the best ever found in that field. The hole is full of oil, and the well is expected to flow at any time.

A mile and a half east of Petersville, and a little more than that distance from developments in the 100-foot field, Jack McTamany & Co. have a well which is showing for a fine producer. It extends the area of the field nearly two miles in the direction of Butler. Another wildcat venture which surprised the trade somewhat is the well on the Daniel Shaner farm, two miles north of Prospect. When this well was reported two weeks ago as starting off at 15 or 20 barrels per day the prediction was made that it would fizzle out as soon as the head was pumped off. Instead of doing anything of the kind it has been putting between 10 and 15 barrels of oil in the tank every day since it was opened, and some of the pessimistic operators referred to are trying to get hold of some of the leases in that vicinity. on Liberty avenue, East End, about 80x125 feet, for a figure bordering on \$6,500; also a on Gist street for Mrs. George Sommers to Lytle street, in the Blair estate plan of lots, Twenty-third ward, for \$900.

Brown & Saint sold to D. T. McKeag lot No. 41, Brushton place, having a frontage of 50 feet on Meade street and extending back 140 feet to on ateade street and extending the action as 25-foot alley, for \$900.

A FINE farm, with large hotel and road-house, near one of the largest cities in the Union, is offered in exchange for Pittsburg

DULL TO A DEGREE.

Disappointment on the Street at the Limited Bond Offerings-Railrend Stocks Quiet -Sugar Trust Affected by the

Trustees' Circular. NEW YORK, July 25.-The activity and buoyancy shown to a comparative degree in the stock market yesterday, and which was directly the result of the expectation that the Secretary of the Treasury would be able to get all the bonds he wanted disappeared to-day, and again the dullness and stagnation, relieved only by a few sudden changes in some of the spe-cialties, prevailed. There were reports that ciaites, prevailed. There were reports that considerable disappointment was felt at Washington that the circular of the Secretary had not brought out a larger number of bonds, but the acceptance of over \$6,00,000 seems to ordinary minds a sufficiently large amount for a beginning, especially as that will release about \$8,000,000.

ginning, especially as that will release about \$8,000,000.

That there was disappointment in Wall street that the market did not respond more fully to such an event is without doubt, and the fact that it did not is a sufficient proof that the apathy and listlessness of the market are deepseated and will take time to overcome. The prospects are regarded by the bulls as very favorable to the inauguration of a more active and higher market in the fall, and the fact that stocks do not come out in the duliness gives daily encouragement to the advocates of a higher range of values.

The publication of the circular from the trustees of the sugar combination, to-day, caused little or no movement in the certificates, and the business done in them showed a marked failing off from that of yesterday. The width of the fluctuations were also on the same limited scale as in the regular list, and the price never got far away from 78. During the day the bearish traders made a few feeble attacks upon certain stock, and Atchison and Lackawana were most conspicuous, but the impression made extended to fractions only, and

attacks upon certain stock, and Atchison and Lackawana were most conspicuous, but the impression made extended to fractions only, and the movement was of short duration in either case. Citizens' Gas of Brooklyn continued its upward march, the movements being sharp and sudden, like all the movements of the day worthy of mention. The bears of New England attempted to offer the stock down, and one of them may find himself in trouble, the last case of the kind having resulted in a suspension for six months. The stock, however, closed unchanged from last evening. In Lackawana, they were more successful, and it is the only stock showing any material loss for the day, its decline being 1½ per cent. Citizens Gas is up 1½ per cent. The close under the pressure was heavy at close to opening figures.

lly per cent. The close under the pressure was heavy at close to opening figures.

There was the usual quiet business in railroad bonds and the usual lack of feature beyond the weakness in Atchiaou incomes.

Government bouds have been dull but strong. State bonds have been dull and strong. State bonds have been dull and strong. The Post says: After about 1:30 o'clock, the market was slightly more active and prices were lower. There was no news or developments of any kind that would have an effect on the general stock market, unless it might be argued that the advance in wheat to-day was on general principles an argument for lower prices for railroad stocks.

discounts.

Checking was off nearly \$500,000, due to anticipated pay rolls and the departure from the
city of a number of business men, but deposit
ing was almost as heavy as on the best days of
the season. Exchanges were \$2,409,003 24, and
the balances \$303,888 09.

DOMESTIC MARKETS.

Choice Dairy Products Firm, and Low Grades Very Slow.

THE BERRY SEASON NEAR ITS END. Light Cereal Receipts and Market Steady at Quotations.

GENERAL GROCERIES ARE UNCHANGED

OFFICE OF PITTSBURG DISPATCH, FRIDAY, July 25, 1890. Country Produce-Jobbing Prices.

Choice grades of creamery butter are in short supply and markets are firm at outside quotaions. Low grades are in over-supply and prices for this class of goods are only nominal. Everything choice in the dairy product line com-mands ready sale. Nearby eggs are scarce and firm at outside quotations. Chicago eggs are in fair supply, and for these markets are steady in fair supply, and for these markets are steady at 18c per dozen. Potatoes are in good supply and drift of markets is toward a lower level. The same is true of tomatoes. Cantaloups are plenty and markets are quiet at lower prices. Watermelons are also in full supply and prices are weak at a decline from last week's rates. Apples are coming in more freely, but there is introduced attack in the receipts. little choice stock in the receipts. All signs point to a very short apple and peach crop this season. The berry season is close to its end for this year. Another week will wind up the crop of raspberries. Mountain blackberries are beof raspberries. Mountain blackberries are beginning to come to market, and will be plenty for the next week or two. Choice tomatoes are firm at outside quotations. Common and low grade stock is very firm at inside quotations. APPLES—\$5 00%5 50 a barrel.

THE MARKET BASKET.

Tegetables More Abundant, but Prices Still Kept Up-Market Gardeners Weicome the Rain-4 Good Crop of

Grapes-Prices of Staples. Market basket materials are essentially the same as they were a week ago. Home-grown vegetables are coming in more freely, but prices of choice stock are well maintained. Southern tomatoes and potatoes are lower. Watermelons and cantaloups are now at their best, and retail prices should be considerably lower than they were a week ago. The showers this week, which were adverse to races and camp meetings, were a great comfort to marcamp meetings, were a great comfort to mar-ket gardeners. A Diamond Market dealer in garden stuff said resterday: "If the rain hadn't come we would have little to sell, Ceiery has been very much improved by late showers. In fact, everything in the market gardening line has been very much improved by these late rains," Berries are on the wane, and this week will practically wind up the season in this line.

line. Grapes are coming in to take the place of Grapes are coming in to take the place of berries, and prespects are good for an abundant crop. Retail dealers in garden truck report a good week's trade, considering the absence of many of their best customers at the seashore or the mountains. But for the late rains stuff would have been very scarce. Butter, eggs and poultry are the same in price as they were last Saturday. Choice butter and strictly fresh eggs are higher in a jobbing way, but retail prices are unchanged. In the line of ocean products everything is scarce. Demand exceeds supply. Soft shell crabs, small salmon and frogs are very scarce.

The absence of consumers at watering places has curtailed trade the past week, but demand is good for all ocean products that come.

demand is good for all ocean products ana-come.

Florists report a quiet week, with no change in prices. The absentees who usually send in orders at this time of the year have been very moderate, so far. Our florists expect a good demand for their products from the Pittsburg-ers who are privileged to go to the mountains or seashore, but their expectations so far have not yielded any great results.

Staple Meats. The best cuts of tenderloin steak range from 20 to 25c, with last figure for very

fancy; sirioin, best cuts, from 15 to 18c standing rib roast, from 15 to 20c; chuck roast, 10 to 12c; best round steaks, 1234 to 15c; boiling lo to 12c; best round steaks, 12% to 15c; boiling beef, 5 to 8c; sweet breads, 20 to 50c per pair; beef kidneys, 10c apiece; beef liver, 5c a pound; calf livers, 25 to 56c apiece; corned beef from 10 to 12c per pound. Veal for stewing commands 10c; roast, 12% to 15c; cullets, 20c per pound; spring lambs, fore quarter, 10 to 12c; hind quarters, 15c. A leg of mutton, hind quarter, of prime quality, brings 12%c; fore quarter, 8c; loin of mutton, 15c; giblets, 5c per pound. Garden Stuff.

Cabbage, 10 to 20c; new potatoes, 25c per half peck; choice tomatoes, 20c a quart box; bananas, 15 to 20c a dozen; carrots, 5c a bunch; lemons, 30 to 40c per dozen; oranges, 35 to 50c; cauliflower, home-grown, 15 to 25c a head; lettuce, oc per bunch; beets, oc per bunch, Sốc per dozen: green onions, 2 bunches for 5c; cucumbers, 5c apiece, 6 for 25c; pens, 35c a half eucumbers, 5c apiece, 6 for 25c; peus, 35c a half peck; beans, 25c a half peck; apples, 20c a quarter peck; black raspberries, 20c, red, 20 to 25c; blackberries, 15 to 20c a quart; huckbeberries, 20c a quart; celery, 5c a bunch; roasting ears, 30c a dozen; pineapples, 10 to 15c apiece; eggplant, 15 to 35c apiece; squash, 5z apiece; watermelons, 20 to 50c apiece; cantaloups, 15 to 40c apiece; California apricots and peaches, 35c a quart box; German prunes, 40c a quart; grapes, 15 to 25c a pound.

Choice creamery butter, 25c. Good country butter, 12 to 14c. Fancy pound rolls, 25 to 30c. The retail price for fresh country eggs is 25c. The range for dressed chickens is 75c to \$1 25 per pair.

Ocean Products. Following are the articles in this line on the stalls, with prices: Lake salmon, 10 to 123/c; California salmon, 35c per pound; white fish, 123/c; herring, 4 pounds for 25c; Spanish mackerel, 25 to 30c a pound; blue fish, 15c; halibut, 20c; rock bass, 25c; black bass, 15c; lake trout, 125c; lobsters, 20c; green sea turtle, 20 to 25c. CAN SAIL IN CANADIAN WATERS.

Permits Granted to American Yachtmen

Without Payment of Duty. OTTAWA, July 25 .- The Minister of Customs has authorized the issue of a permit under which temporary residents in the Dominion may bring their yachts into Canadian waters for the summer without payment of duty. The conditions of the permit are that a vessel so coming in shall not be

made use of at any time nor in any manner for purposes of trade or profit.

The owner will have to solemnly engage that he will not permit any act to be done in connection with the use of his vessel in violation of the revenue or navigation laws of Canada, and that he will surrender the permit when leaving Canada or its waters to the Collector of Customs, from whom it was

A WORLD OF TRIUMPH

Has been achieved by the physicians of the Catarrh and Dyspepsia Institute, at \$23 Penn avenue, in the hundreds of permanent cures made since the commencement two years ago of their now immense practice.

As they give their whole time and attention to the exclusive treatment of catarrh and dyspepsia hence, their success in making oures.

Every day patients apply at this medical institution for treatment who have spent years of the contraction of

stitution for treatment who have spent years of time and vast sums of money with doctor medicines to no avail. The most of the pa received for treatment at the Catarrh and Dys-pensia Institute, and all of the testimonials published from patients cured, are from this class, and who had suffered from catarrh or desnovate in its user formers.

ANOTHER LIVING TESTIMONIAL.

Mr. Charles G. Haag, corner Bidwell and Franklin streets, Allegheny, is another living testimonial to a permanent cure made by these specialists. He had ringing sounds in his ears. His nose was continually stopped up, so that he had to breathe through his mouth. He had nain over and about his eyes. It was with great difficulty that he could clear his throat of the tenaceous mucus that dropped down from his head. In fact his throat became so much involved that his neck became stiff, producing cracking sounds when he turned his head. His sense of hearing began to fail, and he gradually grew worse until a cough set in.

Reading in the papers of the success of the catarrh specialists at 323 Penn avenue, in making cures he took a course of treatment and became cured. He adds: "This is to certify that I have been cured as above stated. I hereby sign my name.

"CHARLES G. HAAG."

second ward, comprising about 3½ acres, with a large dwelling of 15 rooms, with outbuildings, fruit, shade and ornamental trees, changed owners yesterday for \$40,000. The deal was made by W. A. Herron & Sons, but they refused parties. used particulars until the deed passes.

Thomas Laggett sold a lot on River avenue Nineteenth ward, 30x120, for \$900 cash; also on Lemington avenue, Twenty-first ward, about 23/2 acres, with frame house, for \$6,500.

C. E. Succop sold nine lots in the Birmingham Land Improvement Company plan, Southview place, on private terms.

Hammett & Meredith sold a lot for H. S. Kline of Box.

TRADED IT FINALLY FOR ICE. A Comparison of Values Between Pitts-

Mr. J. B. Larkin, who has only recently returned from a week's visit to Chicago in the interest of some Pittsburg investors, in sentative yesterday, told an interesting

"I have read with much interest of the lucky leals made by a number of Pittsburg gentle men in Chicago real estate, and after five days or persons of large means, and that the reports

State streets, and 21/2 miles outside the cor-porate limits now. Mr. Seely sold his portion for little or nothing to Mr. Parker of the East End, and that gentleman traded two acres of it as late as 1879 for ice to Edward Smith, of Frankstown avenue, East End, who also deemed it of little or no value, and did not record his deed, although still in possession

locate this addition, and found it on the line of what is known as the Belt Railroad (similar to our Junction Railroad), where it crosses or bisects the Grand Trunk Railroad, miles from the city limits and miles from State and Madison ets. The Secretary of the Anderson Brick Works, a large plant with a capacity of 300,000 bricks per day, now being erected on the 80 acres adjoining the Seely-Radeliff purchase, informed me that the Seely land, if kept intact without having been subdivided and sold would now be worth \$160,000, or \$1,000 per acre, and that in small tracts of three to five acres is worth and is now held at \$700 per acre. There is only one bouse within two miles of it, and the nearest railroad station is Hayford, 2% miles distant on the Grand Trunk Railroad

Prices Looking Up. "The causes of the recent and prospective enhancement of values were thus stated by Mr.

by the Stickney syndicate for the use of the Union Transfer Company, who propose erecting the largest transfer depot in the world. It is said that 16 of the 20 heavy railroad interests of Chicago have agreed to this purchase and are parties to the transfer or title papers. The Grant Locomotive Works are also in prospective, and are booked for the West Side, some

When asked about the value of suburban "The comparison is not a fair one, as the con-ditions are very different. Chicago has unlimited territory reaching north, south and west over a country that is as level as Wood street. It has bsorbed everything that has a corporate existence anywhere within reach, and the county of Cook is gridironed with rallroads and street car lines with low fares and a system of transfers that invites people to build up the suburbs. Level land outside the city of Chicago is cheaper than land of the same character in this city, except that immediately adjoining the Stickney tract for the Uniou Transfer Company depot and yards, Grant Locomotive Works and other large enterprises, but in this city it is scarce and hard to reach, while the reverse is

true of Chicago. In the business portion, how-ever, values are three to four times as high as in this city, and, to get returns for an investment, owners are erecting 10 to 18-story buildings, every corner of which is occupied."

A curious feature of this narration is that none of the Pittsburg owners of "Keystone Addition" have ever seen it, and know nothing about it (although it is said that Charles Seely named the town after his friend, J. B. Lvon. now dead, and expected to rival Chicago at some future day) except from the information contained in the title and tax abstracts and that furnished by Mr. Larkin, who footed it

and the certainty of an electric road in about a year has given a great impetus to real estate in the Emsworth district. It bids fair to soon equal the East End in activity.

There is a movement on foot to change the names of Thomas and McPherson streets, Boulevard place, to something more euphonious and in better keeping with the character of the locality. Suggestions for names may be sent to Black & Baird.

A meeting of the Boulevard syndicate will be held Monday next at the People's National Bank, to lift the deed for the property recently purchased, over 1,000 feet frontage, for \$63,500.

A fine residence property in the Twenty-.

The best bid was 80%c. Nothing could more forcibly illustrate the condition of the market than this collapse of business. The reason given was that the local crowd had all they wanted to carry, and there was nobody else to take it.

A broker said: "The Standard has been working a long time to put us in the hole we now occupy. We must hereafter trade in the Lima product or nothing. Until it is listed, about the middle of bext month, there will be very little done. Whether it will help business or not depends altogether upon the attitude of outsiders. The Standard, owning and controlling the stuff, will be able to squeeze the market whenever it pleases. This fact is so well known to the public that I fear the crop of lambs will be extremely small."

Considerable activity was reported in the field, but nothing important came to the surface. It was said the Robinson well was holding its own, keeping up to the 2,000-barrel gait.
